CYMAT Announces Grant of Stock Options

Toronto, Ontario October 31, 2014 – Today Cymat Technologies Ltd. (the “Company” or “Cymat”) announced, that in compliance with the Company’s stock option plan, the Company has granted 950,000 incentive stock options to certain of its directors, officers and employees, with each option being exercisable into one common share of Cymat at \$0.185 per share until October 28, 2019. 566,665 of these options will vest only if certain performance criteria pertaining to future fiscal years are met.

About Cymat:

Cymat develops innovative materials for industry. The company has worldwide rights, through patents and licenses, for producing Stabilized Aluminum Foam. The ultra-light metallic foam is manufactured by bubbling gas through molten alloyed aluminum containing a dispersion of fine ceramic particles and can be produced as either Near-net Shapes or Flat Panels. The result is a revolutionary material with a wide array of features including very low density, mechanical energy absorption, thermal and acoustic insulation, is recyclable, time and temperature insensitive and has a relatively low cost of production. Cymat is collaborating with a number of partners spanning the architectural, blast mitigation and automotive industries. For further information, visit the Web site www.cymat.com.
